

Mauro Nicolas Trejo

Full Stack Developer

@ maurocsiete@gmail.com T +54 381 4767206 P Tucumán, Argentina in Mauro Trejo Pf maurotrejoportafolio.com

PROFESSIONAL PROFILE

Full Stack Developer with 6+ years building web, mobile and backend products for payments, telecommunications, retail and healthcare. Specialized in React Native, React and .NET/C#, with experience in APIs, microservices, SQL Server, Azure, AWS and production solutions used across Latin America.

EXPERIENCE

Senior Full Stack Developer.

PinApp · Real Plaza | Jul 2026 - Present

- Development and evolution of the Real Plaza mobile app and its backend services with React Native, .NET and C#.
- REST API, SQL Server, Firebase and Azure integration; contribution to architecture, technical decisions, CI/CD and continuous improvement.

Full Stack Developer.

ASAP Consulting · DIRECTV LATAM | Aug 2025 - Jul 2026

- Full stack development of web, mobile and backend applications supporting DIRECTV LATAM's regional operations.
- .NET microservices, APIs and integrations for service orders, technicians, availability and operational configuration; React + TypeScript interfaces and mobile functionality.
- Multi-country batch processes and internal tools for automated validations and support; contributions to MiDIRECTV, Optimus and DGO.

Full Stack Developer.

Zoco - Payment Services | Dec 2021 - Jul 2025

- Web, mobile and desktop solutions for payments, operations and events, including the development and release of Zoco, Zoco Tickets and Zoco Scanner.
- ASP.NET Core + React platform with CRM, Meta leads, an AI assistant, merchant management, settlements, taxes, compliance, monitoring, reporting and role-based panels.
- WinForms and .NET 8 tools for bulk uploads and financial Excel automation with rules, QR workflows, macros and quality controls.

Full Stack Developer.

Trinidad Salud | Mar 2021 - Present

- Healthcare ecosystem with a Laravel backend and APIs, React admin panel, React Native app and institutional websites deployed on AWS.
- Member and plan management, appointments, prescriptions, billing, digital cards, reimbursements and authorizations; authentication, roles, permissions and PDFs.

Independent Full Stack Developer.

Freelance | Feb 2020 - Present

- End-to-end web and mobile solutions: discovery, architecture, APIs, interfaces, databases, deployment and maintenance.
- Process digitization and development of management systems, landing pages and platforms with React, Laravel, .NET and React Native.
